KEYNOTE SPEAKER

Stuart Aitken

With an extensive background in technology and marketing, Stuart Aitken is a firm believer in the power of data, but also in the power of the customer and the subjective concept of loyalty. Prior to joining dunnhumbyUSA, Aitken served as Executive Vice President and Chief Marketing Officer for leading arts-and-crafts retailer Michael's Stores. For nearly a decade, he managed loyalty marketing, data analytics, innovation and category management at North American grocery retailer Safeway.

As dunnhumbyUSA CEO Aitken has led the company's growth as a leader in personalization, helping clients such as The Kroger Co., Macy's, Coca-Cola, General Mills and Procter & Gamble find success by rewarding and retaining their best customers.

Aitken believes in the same success-through-loyalty approach for fostering relationships with employees and clients. dunnhumbyUSA has created a supportive work environment that's landed the company on the Cincinnati Business Courier's "Best Places to Work" list for four years.

Aitken's personal experiences have helped him understand the diversity of values that drive individuals' decisions. Aitken is originally from Scotland and lived in South Africa for 10 years, where he witnessed the oppression of basic freedoms. Today, his outlook focuses on supporting his wife - a cancer survivor, his two children and the community. He serves on the board of directors for the CincinnatiUSA Regional Chamber and on the board of trustees for the Cincinnati Symphony Orchestra. He was also selected as a 2010 "Pink Tie Guy" ambassador for breast health by the Susan G. Komen For the Cure of Greater Cincinnati.

Aitken holds a bachelor's and a master's degree in Information Management, and also worked as a software industry consultant and as a technology professor.

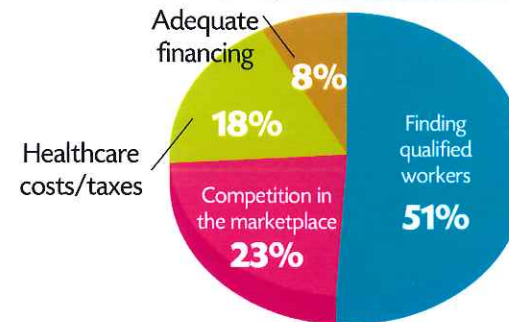

Success Poll

We asked the Tristate Success Award winners for their thoughts on the following questions. Here's what they said.

Which of the following is most important to your company's success

Which of the following is the biggest challenge for your business?

How do you manage to succeed in a slower growing economy?
